

Post 2020: Hands on the programme template & intervention logic

22-23 September 2020 (14.00-16.00 CET)

Online event

Draft Agenda

Hands on the programme template & intervention logic 22-23 September 2020, 14.00-16.00 CET

Outline

Following up on our [last evaluation event in January](#), we would like to continue the discussion on topics related to evaluation post 2020: building the intervention logic incl. indicators and filling in this and other information into the programme template (IP) then.

A sound intervention logic is the basis for a good start to evaluations in post 2020. That is why we will look into questions such as

- How to establish the intervention logic?
- How to define the right indicators?
- What are the challenges of building an intervention logic?
- What are lessons learned from the past?

On the first day, we will go through the whole template – chapter by chapter – and point out what you need to consider, when you are filling it in.

Throughout the event Dorota Witoldson (Unit D2 Interreg, Cross-Border Cooperation, internal borders, DG REGIO), a colleague from the Unit D1 (tbc), David Alba (Unit of Evaluation and European Semester, DG REGIO), and John Walsh (Unit of Evaluation and European Semester, DG REGIO) will be present.

The target group of the meeting are managers from Joint Secretariats and Managing Authorities involved in the preparation of the 2021-2027 programmes.
