

# INTERACT ENPI Annual Conference

10-11 December 2009 | Rome, Italy

---

**Date** 10-11 December 2009

**Venue** Lazio Region, nr 15 Piazza Oderico da Pordenone, Rome

## Outline

The INTERACT ENPI Annual Conference is organised in close co-operation with Lazio region in Italy and EuropeAid Cooperation Office.

The Conference is an arena for the ENPI CBC programmes to meet and to exchange experience on practical implementation issues and technical programme management. The further aim of the conference is also to discuss future challenges and strategic implementation approaches that can have practical implications for the ENPI CBC programmes from and after 2010.

The Conference will be structured in a plenary session followed by 3 parallel workshops. The plenary will allow for panel interventions and discussions among participants on the questions of general nature. It will address both the lessons learned in relation to current challenges and the further strategic initiatives.

The workshops are structured towards a focused discussion on technical and management questions. Today several Programmes have already the first calls open and have been dealing with a part of project evaluation and selection process. This will be the focus of the first workshop. Some progress has also been made during the year on how to approach the procurement procedures and Large scale projects as well as on monitoring and evaluation issues. All these aspects and their future approaches will also be the subject for the discussion in the workshops.
