

### Contact point for the Interreg Sweden-Norway projects

Conference in November 2009

The focus was "match making/speed dating". Our projects had the opportunity before the conference to describe themselves on the website for the conference.

They could ask for the kind of projects they liked to meet face to face. Two weeks before the actual conference the projects did choose specific projects.

The conference also had speakers from Best practice projects.

Sweden and Norway's most known goal keepers in football held a lecture about cooperation. It was also the first cooperation they had together, especially set up for the conference.

We also had seminars on the subjects of "International projects, Why bother?", conducted by Mid Sweden and Mid Norway's representations in Brussels.
