

INTERREG III B CADSES Closing Conference
„Territorial Co-operation in Central and South East Europe”
Venice (Italy), 24 and 25 November 2008

Announcement

Dear Ladies and Gentlemen,

With the closure of the CADSES programme a period of co-operation comes to an end which was launched in 1996 with the preparation of the first programming period INTERREG II C (1997-1999). The end of the second funding period INTERREG III B should be used to demonstrate and discuss the achievements on programme and especially on project level. Towards the end of this year it is time to summarize the experiences of the partner countries involved in the programme. For this purpose the CADSES closing conference will be held. The conference is addressed at CADSES programme actors and project partners, politicians, administrations, other experts and the media.

Enclosed you find the interim programme of the two conference days including the abstracts of the planned plenary and workshop sessions. The invitation and the registration form will be sent out within the next weeks. For any further information don't hesitate to contact the conference organisation team Alessia Mastroleo (alessia.mastroleo@sogesnetwork.eu) or Anke Hahn (ahahn@jts.dresden.de).

We would be glad to welcome you in Venice, a city in Central Europe which offers an attractive ambiance to review more than ten years of fruitful cooperation and also to get an outlook of what's coming next in the framework of European territorial cooperation.

See you in Venice!

Margarita Jancic
Chair of the CADSES Monitoring and Steering Committee
Slovenian Ministry of the Environment and Spatial Planning

Loredana Campagna
CADSES Managing Authority
Italian Ministry for Infrastructures and Transport
