

# Advanced Capitalisation methodologies 1

**DRAFT AGENDA**

**20-21 April 2022**

**Workshop: advanced capitalisation methodologies - Capitalisation  
Tailored Support 2022**

Florence (Italy)

## Workshop: advanced capitalisation methodologies - Capitalisation Tailored Support 2022 20-21 April 2022 Florence (Italy)

### Outlines

Based on the recent outcomes of the Capitalisation Tailored Support 2021, programmes already using a capitalisation approach are facing specific needs for a more advanced and structured implementation of these processes.

For several years, implementation of Capitalisation activities in Interreg has led to a due reflection on the results produced by thousands of financed projects, and for the programming period 2021-2027, it will be necessary to focus and define the next steps to undertake in this respect.

As part of the supporting activities for the enhancement of capitalisation activities, Capitalisation Tailored Support 2022, Interact is organising a series of workshops for a small group of Programmes.

These workshops will be organised throughout the year and will focus on very specific challenges and difficulties for the implementation of capitalisation approaches.

- Which Interreg project results can be re-used?
- How can these results be upscaled and properly transferred to other frameworks/funding instruments?
- How can Interreg results be helpful for the improvement of public policies?
- What 'type of result' may constitute a valuable contribution in this sense? *A policy paper, an action plan, but also a monitoring methodology?*

### Objectives

The main objective is to allow peer learning and review with the support of Interact and external experts.

This first meeting will specify and address the main challenges related to:

- Support in the drafting of capitalisation calls,
- Support in the identification of potential stakeholders (including outside Interreg), who could be interested to re-use outputs and results "Takers",
- Support to thematic clusters/communities,

Support specific thematic events.

This workshop foresees a **very active interaction among participants. Please be ready to share and present your experience as well as concrete case studies or ideas.**

**Workshop: advanced capitalisation methodologies -  
Capitalisation Tailored Support 2022**  
**20-21 April 2022**  
**Florence (Italy)**
