**Co-funded by  
the European Union**  
Interreg

# Table of Content

- [Keep.eu](#) as a living repository of Interreg data and its potential for capitalisation
- [Keep.eu](#) as a tool to share and store results and good practices
- [Upcoming](#) developments

# **Keep.eu** as a living repository of Interreg data and its potential for capitalisation

# What living repository means in practice?

- **Overarching** presence across programming periods
- **Filters** to customize queries and readymade statistics
- **Source** of regularly updated data and documents that can be used for capitalisation &
- **4 Fields** to fill and/or look out for capitalisation in practice

# Overarching presence across programming periods

Keep.eu covers all the financing periods starting in the year 2000 and includes NEXT and IPA countries (excluded in the current Kohesio database).

## Search results: Projects and their documents

Click on any entry below to get to the full data on a project and its partners, or export the table below

 Export all project data from your search results to Excel

# What qualitative and quantitative data mean in practice

- **Numeric** data about projects, partners and call readily aggregated
  - **Project** descriptions, outputs, results
- **42** themes to group together projects from across programming period
- **Project** keywords

# Filters and readymade statistics

## Aggregated keep.eu data

Can be tailored to individual needs through filters on the left and data export on a spreadsheet, table or chart (as an image).

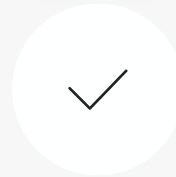

### Overall figures

Includes data about programmes, projects, partnerships, themes, aggregated partner budgets per NUTS0 (country) and per programming period.

### Figures for population and area

Includes data about partnership total budget per capita, per NUTS0 (country) and per programming period.

### Cooperation among countries and regions

Includes data about cooperation among countries (projects in common).

### Other interesting charts

Includes data about the number of projects, partnerships and relative budget sizes per theme.

**Keep.eu** as a tool to share and  
store results and good practices

# Fields to fill and look out for regarding capitalisation

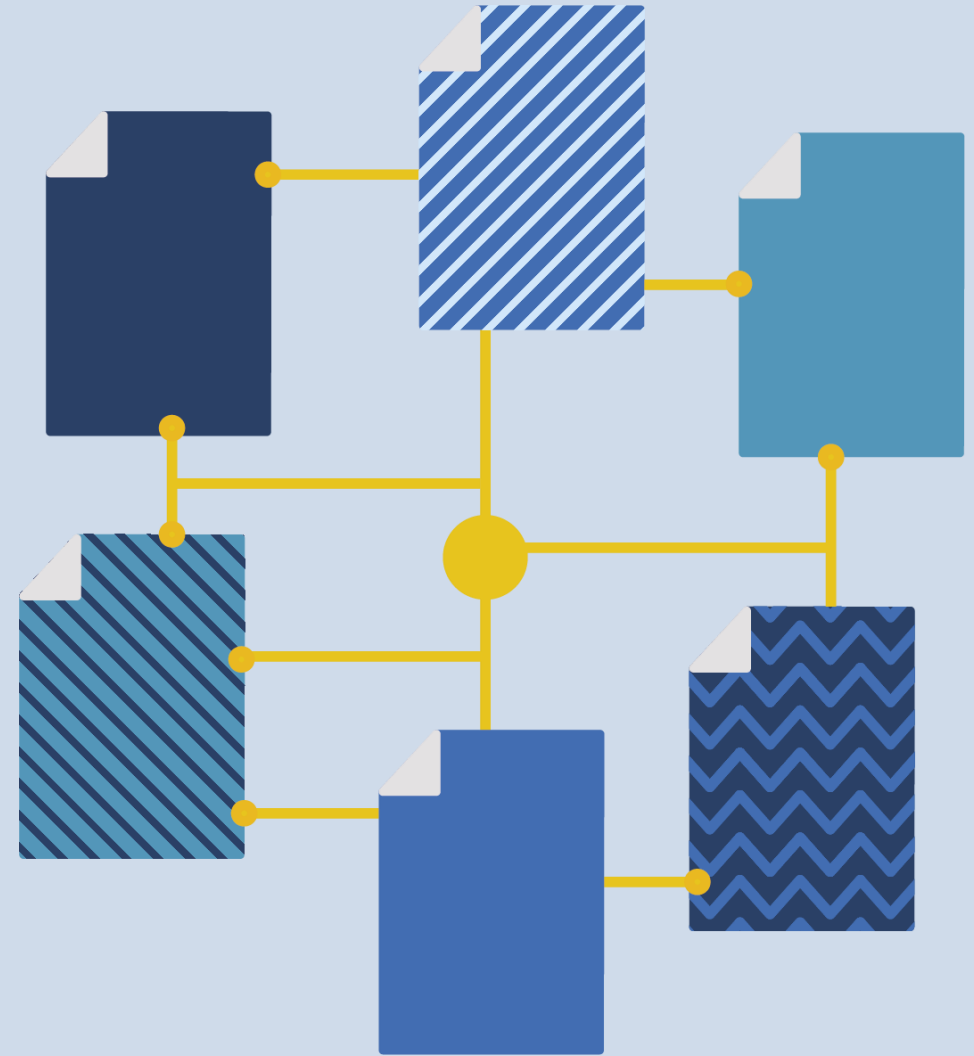

## Four fields to consider

Overall data in keep.eu in general and four fields embedded in keep.eu to support capitalisation in particular.

1. Project linkages
2. Prizes and mentions
3. Results
4. Documents and attachments

# Project linkages

Project linkages tell about the relations between projects e.g. precedent/subsequent projects.

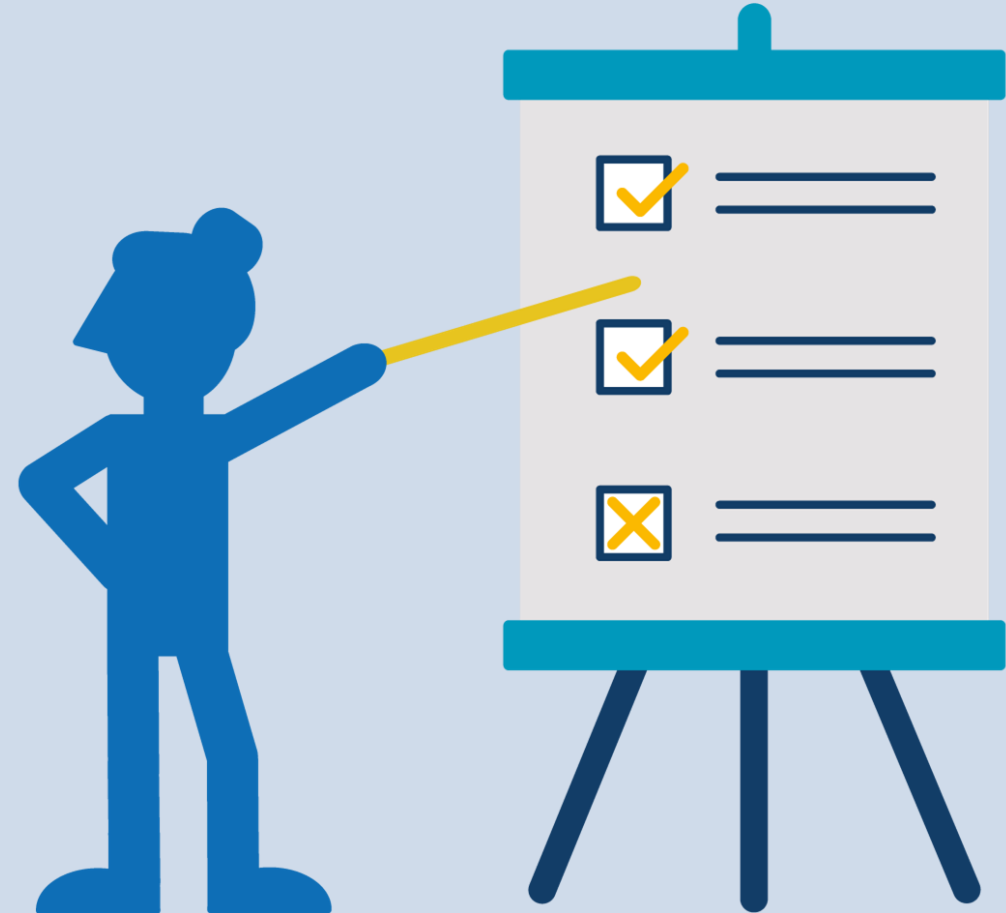

# Prizes and mentions

Prizes and mentions tell about prizes that the project might have won/the good practices it might have provided.

# Results

Results in keep.eu are called expected/actual achievements. When the project is still active they are called expected achievements. Once the project has been finalised the expected achievement will subside to make place for actual achievements.

# Documents and attachments

We collect publicly available project outputs (documents) such as manuals, reports, booklets and videos.

# Emergency at sea in the Baltic Sea Region

How keep.eu can be used in practice for capitalisation. A practical demonstration based on an example from the Baltic Sea Region.

# Upcoming developments

# Interreg Partner Search Platform

To look for potential partners across the Interreg community. Coming up later this year.  
Stay tuned!
