

INFO SESSION

“Live data exchange via INDEX Potentials for synergies in the Mediterranean”

Interact and TESIM / 04.07.2023/on-line

Funded by the
European Union

Interact

Co-funded by
the European Union

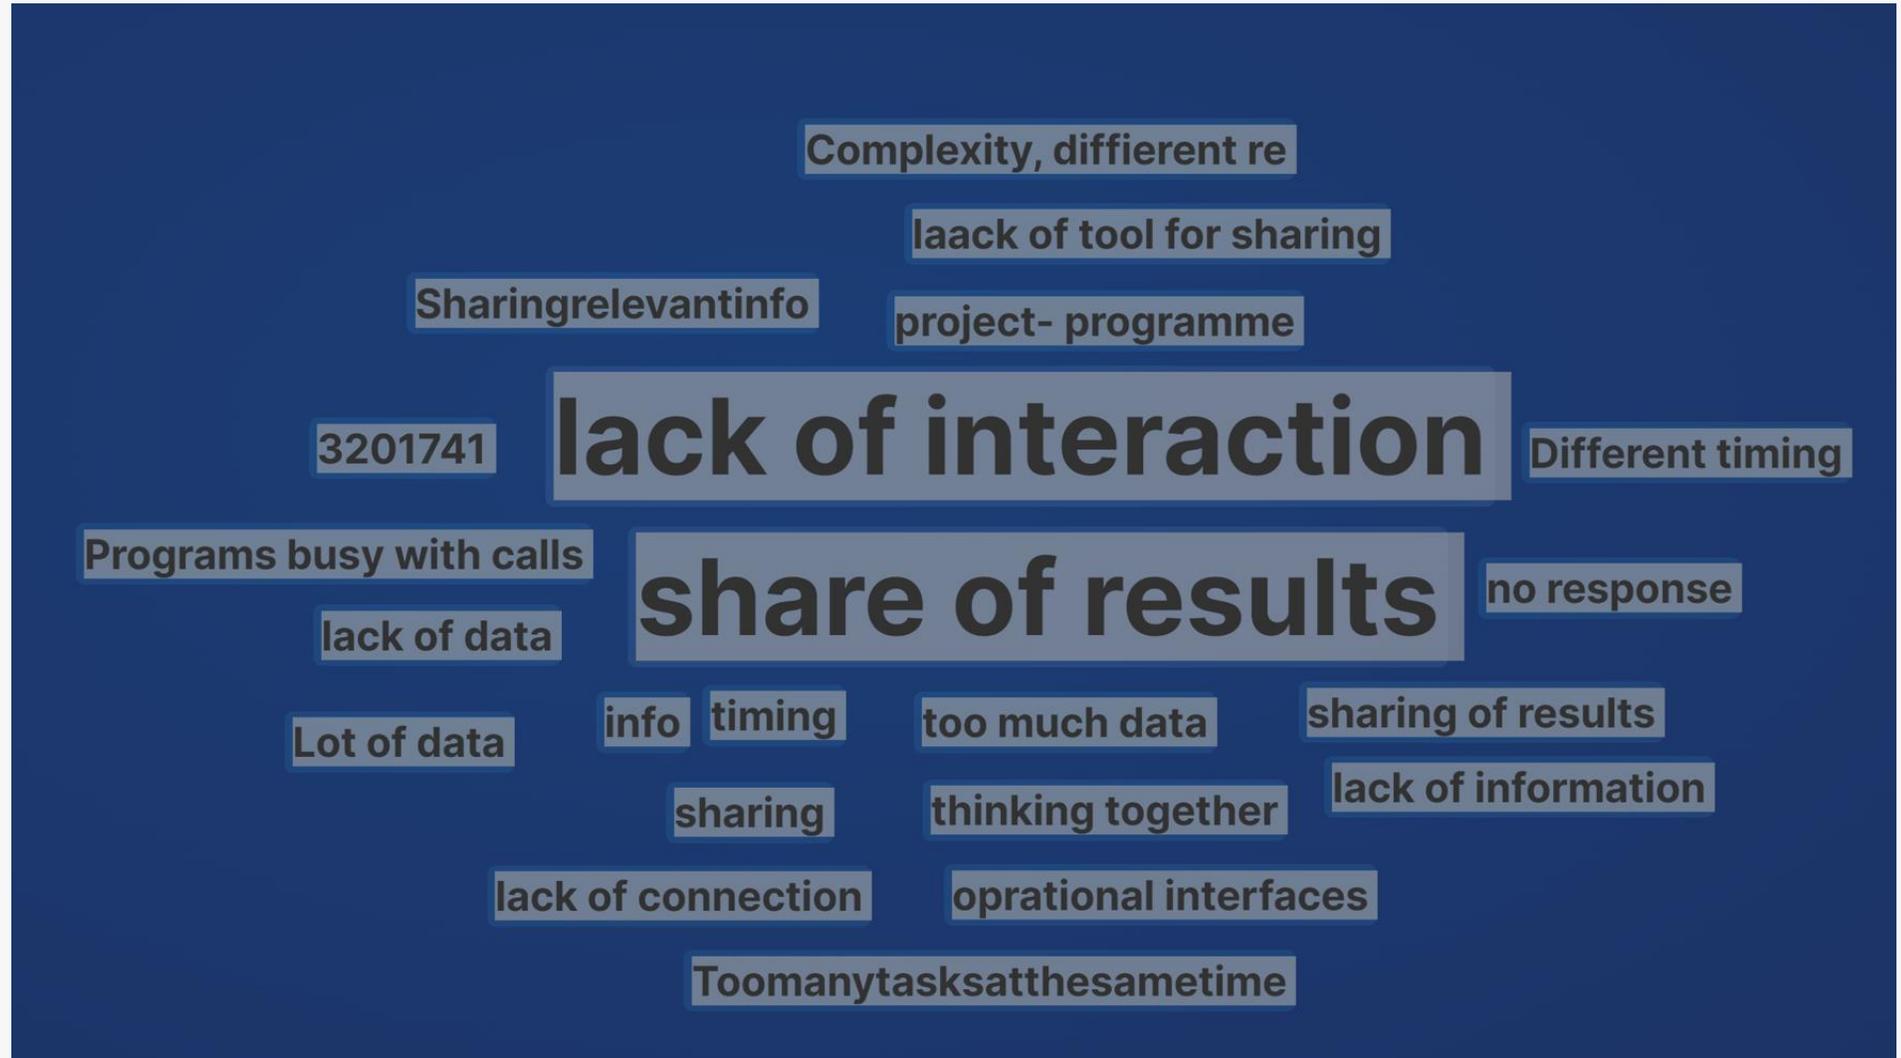

Interreg

Today's objectives.

Key messages

- 1.** **Inform** Interreg programmes in the Mediterranean about the capacities of INDEX
- 2.** **Explore** the interest of programmes in developing INDEX pilot in the Mediterranean.
- 3.** **Discuss** if data sharing across programmes could be useful within the context of the Sustainable Tourism Mechanism pilot or for other pilots in the area

Current programmes challenges regarding synergies and complementarity

Info event

INDEX – Interact Data Exchange

Interact / 05.07.2023

Interact

Co-funded by
the European Union
Interreg

A very Interreg dilemma

Programmes work on a defined programme, on a defined territory

BUT are asked to find and act on cross-programme synergies

Programmes are asked to select the best projects, and to avoid funding already existing initiatives or projects

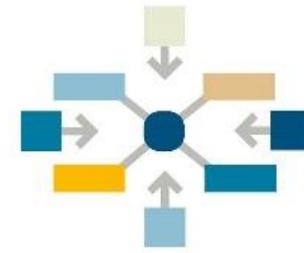

BUT are not able to fully see which projects already exist or are about to be funded by other programmes

Programmes are asked to ensure that all regions in their territory are participating

BUT cannot fully see the wider picture and fund concentration across a larger region

What if..

programmes could know what projects and partners their neighbours are funding?

Index

Effective cooperation through
live data exchange

Why in 2021-2027 period?

Harmonisation of data fields

IT maturity of programmes and use of e-monitoring systems

Experience with co-creation and service design

Other Considerations

Main principles

- Automation: limited to no additional workload for programmes
- Fact-based cross-programme cooperation initiatives
- Already from the assessment stage
- Works with data that is not public

Flexible in defining user cases

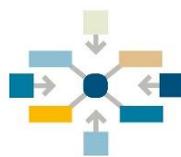

- To identify synergies and build on these
- To ensure Value for Money and realise greater gains for the regions with less funding
- ...

Index is an integral part of **Interact** service offer.

Index is a programme management tool that allows exchange of data from the application stage. It provides space for programme exchange.

And other programme monitoring systems provide data for exchange and visualisation

Index

Effective cooperation through
live data exchange

keep.eu

Publicly available data repository on projects,
deliverables and partners

The co-creation process

Pitching the idea and identifying a valid territory for the pilot

Organising co-creation workshops and defining the scope of the tool

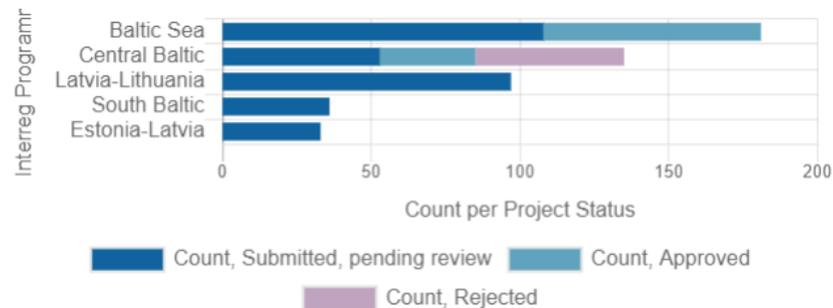

Validating the tool with the programmes

INDEX – how does it work?

5 Interreg programmes sharing application data with each other (via, e.g, API link)

Projects by programme and status

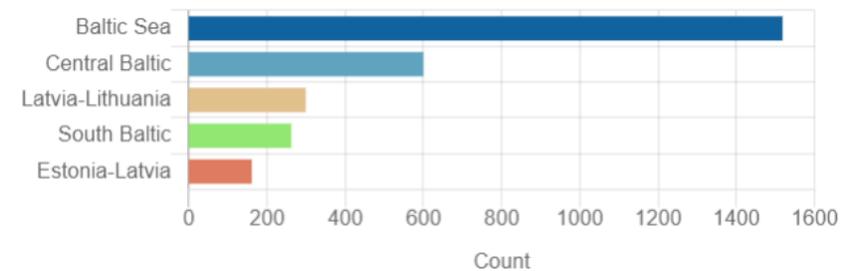

Interreg Programme/Project Status	Count, Submitted, pending review	Count, Approved	Count, Rejected	Total
Baltic Sea	108	73	0	181
Central Baltic	53	32	50	135
South Baltic	36	0	0	36
Estonia-Latvia	33	0	0	33
Latvia-Lithuania	97	0	0	97
Total	327	105	50	482

Summary of current data

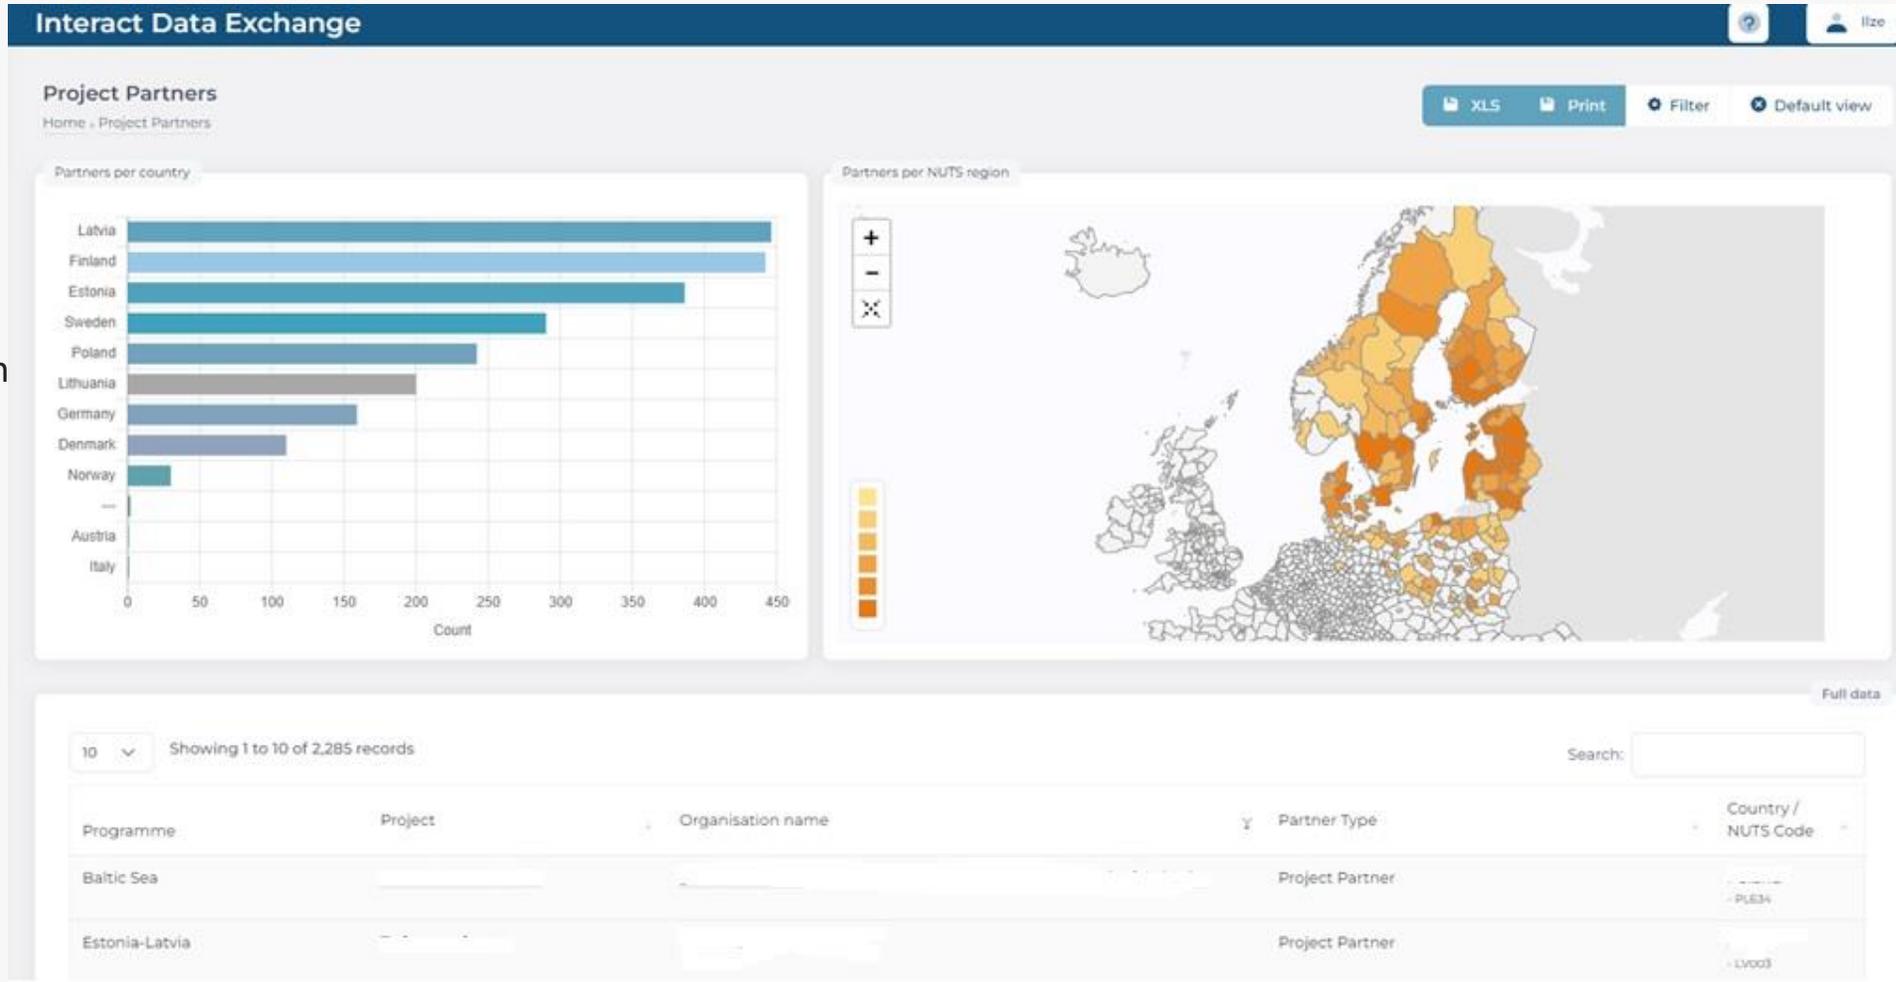

Programmes	Total Projects	Total Partners	Total Budget (Approved)
Baltic Sea	181	1518	121.758.943€
Central Baltic	135	600	51.833.250€
South Baltic	36	263	0€
Estonia-Latvia	33	161	0€
Latvia-Lithuania	97	299	0€
Total	482	2841	173.592.193€

Partners per programme

In this pilot – focus on applicants and partners

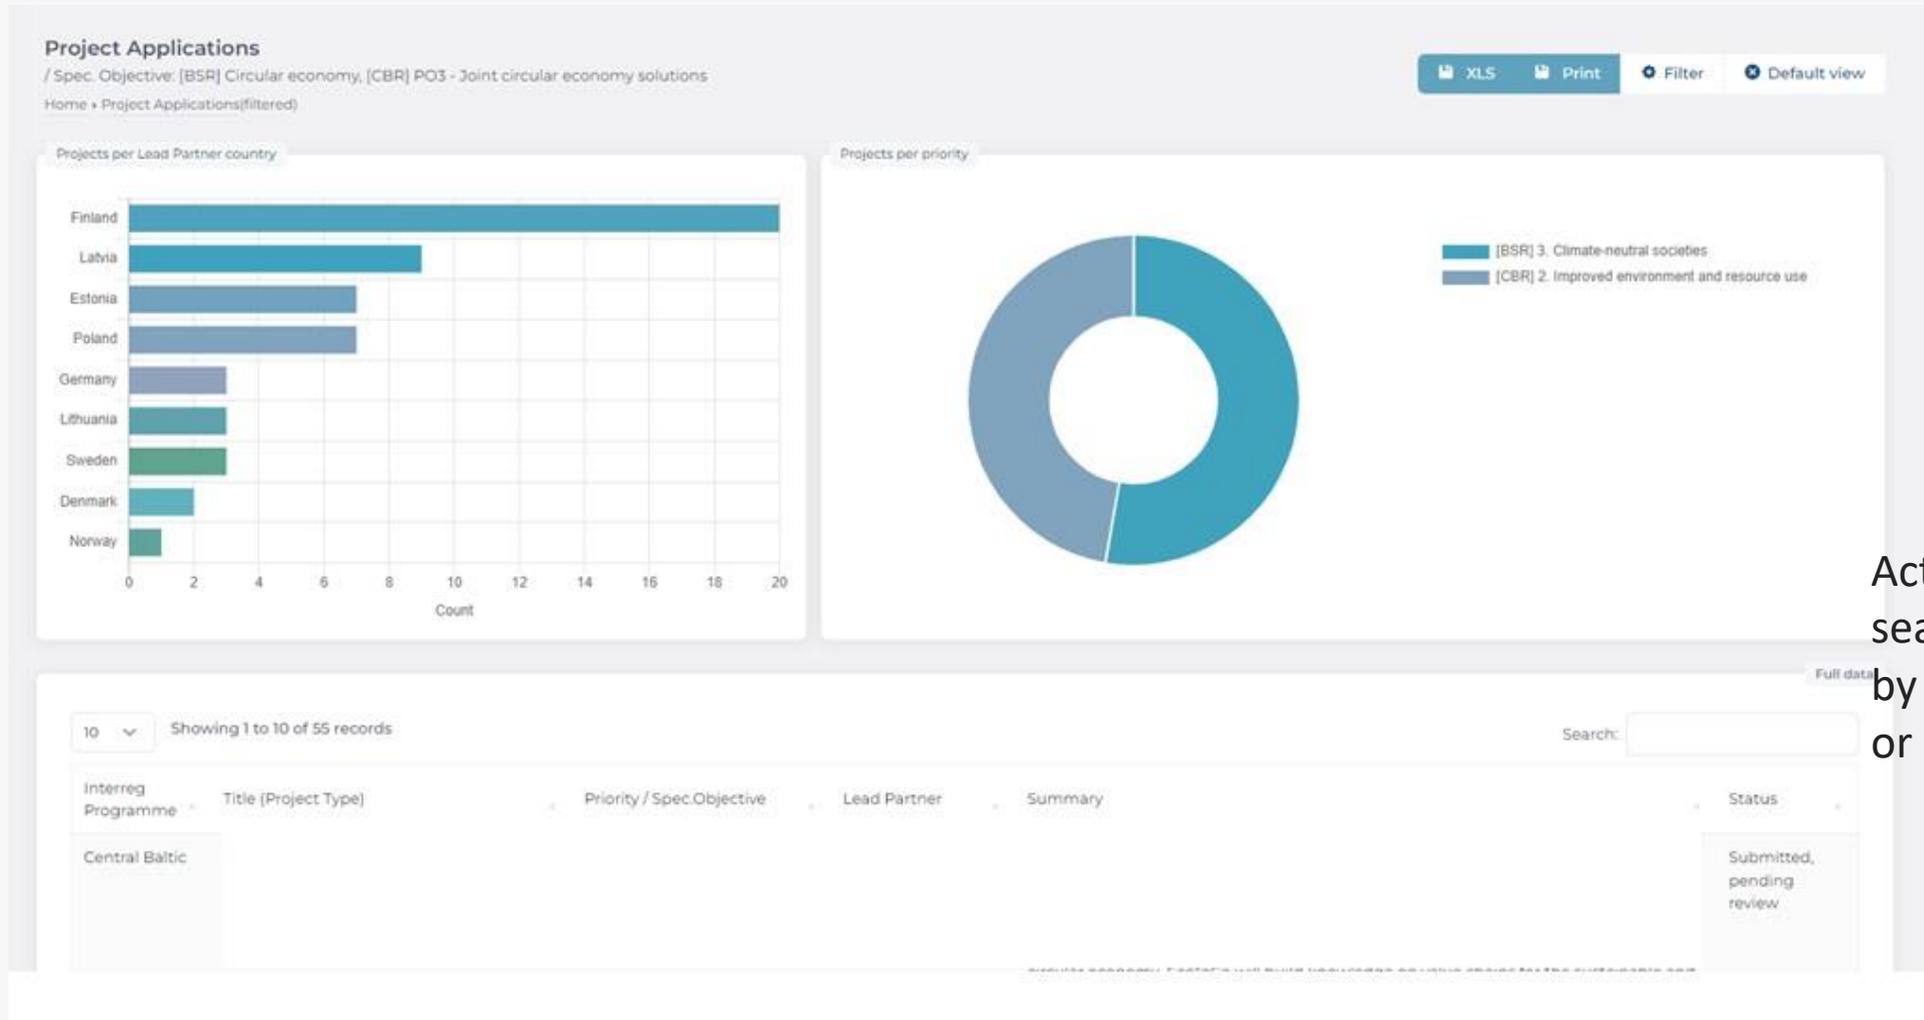

Partner concentration across five programmes

Possibility to export data to Excel

Active search fields

Application and project overview per shared objectives

Active text search, e.g, by key words or phrase

Possibility to generate customised reports

The screenshot displays the 'Interact Data Exchange' interface. On the left is a navigation sidebar with sections: 'Dashboard', 'PROGRAMMES DATA' (Partners, Programmes, Clusters, Reports), 'SYSTEM ADMINISTRATION' (Import), 'COMMUNICATION' (Announcements, Comments), and 'ACCESS' (Users, My account). The main content area is titled 'Overview all projects, all priorities, all SO, with summaries'. It includes a 'Definition' box with the text 'The mother of all tables.', a 'Query details' box with a complex filter string, and a table of results. The table shows 2 records for 'Baltic Sea' filtered from 33 total entries. A search bar contains the text 'tourism'. The interface also features buttons for 'New query', 'Customise', 'Save As', 'Comments', 'XLS', and 'Print'.

Interact Data Exchange

Overview all projects, all priorities, all SO, with summaries

Home » Reports » Overview all projects, all priorities, all SO, with summaries

Definition

The mother of all tables.

Query details

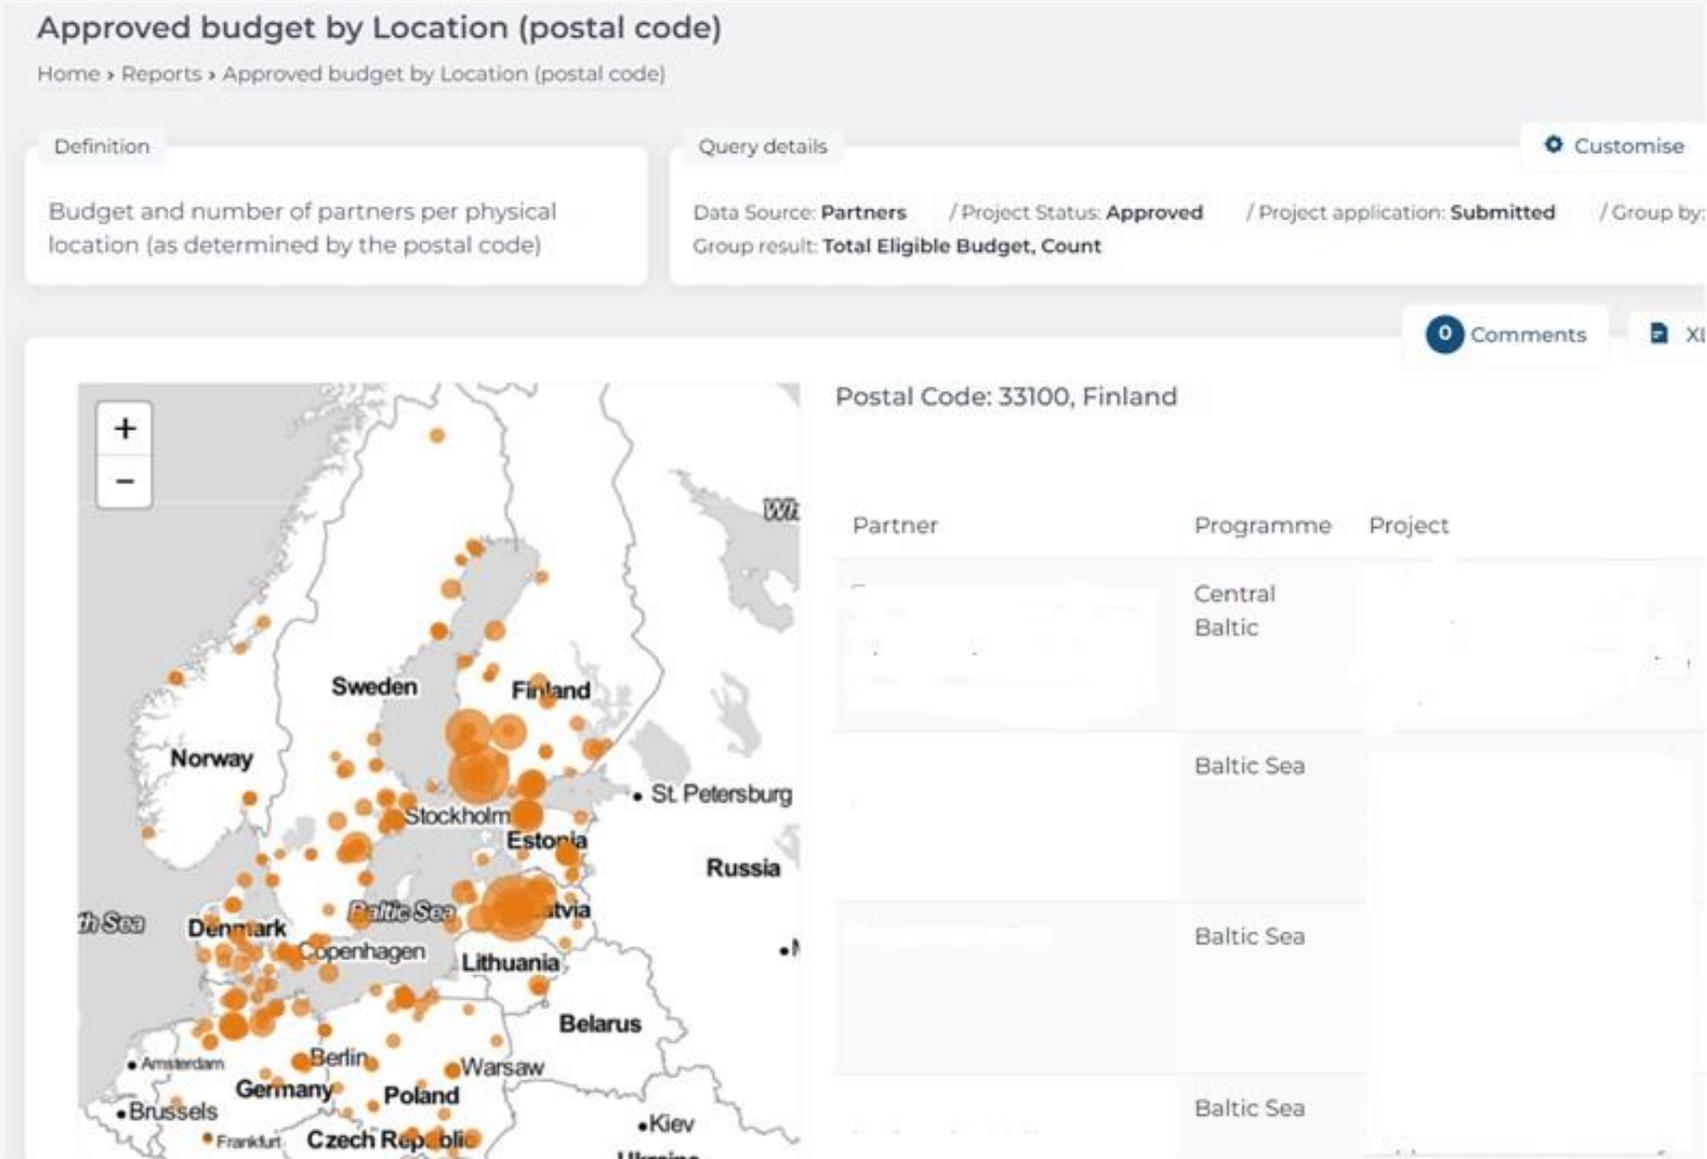

Data Source: Projects / Project Status: Submitted, pending review, Approved / Project application: Submitted / Priority: [BSR] 1. Innovative societies, [BSR] 2. Water-smart societies, [BSR] 3. Climate-neutral societies, [BSR] 4. Cooperation governance, [CBR] 1. Innovative Business Development / A.1.6. Priority specific objective: [BSR] 2.2 Blue economy, [BSR] 3.1 Circular Economy, [BSR] 3.2 Energy transition, [BSR] 4.2 Macro-regional governance, [BSR] 4.1 Project platforms / Project Type: Call 1 regular projects, Call 1 small projects, Core Project

Showing 1 to 2 of 2 records (filtered from 33 total entries)

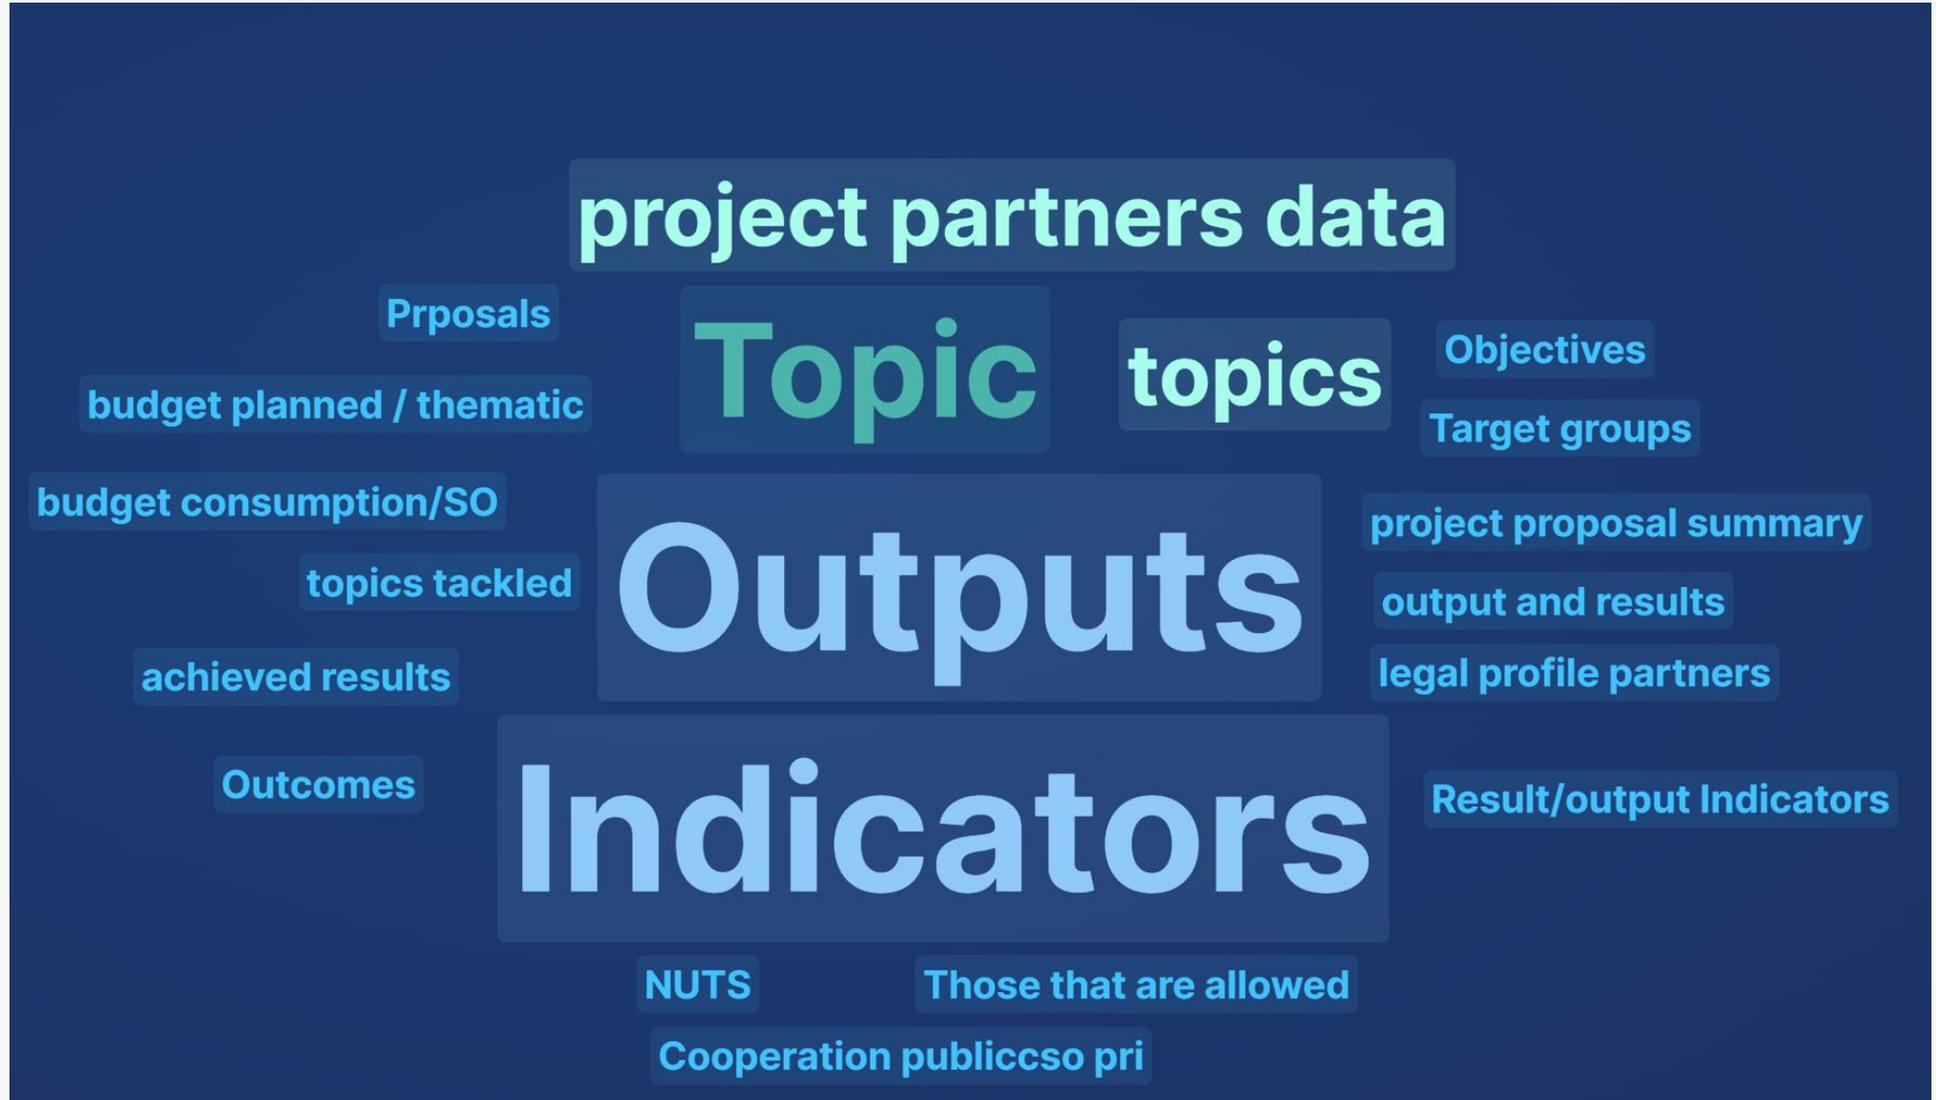

Search: tourism

#	Programme	A.1.1 Project title	A.2 Project Summary
1	Baltic Sea		
2	Baltic Sea
