

Jems User group meeting (5)

9-10 April 2024

Dresden, | Germany

Jems User group meeting (5)

9-10 April 2024

Dresden | Germany

Outlines

Interact invites all the programmes that signed the Joint Electronic Monitoring System (Jems) licence agreement to join the Jems User group meeting.

The Jems User group meeting exclusively gathers programmes already using Jems or taking the first steps to install it in their environment.

We want to encourage the participation of colleagues who are directly involved in the work with Jems and are familiar with the system's business logic.

We will accept two participants per programme to ensure fair representation of the programmes. Service providers of programmes are invited to the meeting as well.

This agenda provides a general overview of how the meeting is planned and structured.

Objectives

The meeting aims to:

- Inform on the state of play of the development of Jems.
- Provide a platform to exchange on the most interesting topics
- Gather feedback on the practical use of the system
