Essential cooperation for resilient health systems: the role of Interreg

3 June 2024 – 10.00h CET

Agenda

Online

Essential cooperation for resilient health systems: the role of Interreg 3 June 2024, online

Outlines

Led by esteemed experts and supported by DG REGIO, this conference represents a unique opportunity to glean invaluable knowledge from recent initiatives within the RO-HU Programme Health Sector Interreg projects.

This event will delve into the crucial theme of **rapid learning and resilient cross border health systems**, particularly within the dynamic landscape of Central and Eastern Europe. At the forefront of our discussions will be the exploration of replicable approaches, essential for navigating the complexities of current and future Interreg programming.

Objectives

Disseminate useful learning point. Sharing valuable lessons learned from recent expert work supported by DG REGIO within the ROHU Programme Health Sector Interreg projects, focusing on current and future orientations.

Highlight Interreg's role. How? Showcasing the significance of Interreg programming in fostering essential cooperation and collaboration to strengthen health systems across borders.

Engage stakeholders, encouraging active participation and engagement from stakeholders involved in various cross-border initiatives, including the Danube Strategy and external border regions, to foster sustainable cooperation.

Inspire action, motivating attendees to take actions and contribute to the collective effort of building resilient health systems that can withstand current and future challenges, ultimately improving the well-being of populations in Central and Eastern Europe.

Essential cooperation for resilient health systems: the role of Interreg 3 June 2024, online
